

Hosting Appeal

Dear Visitor. The Tap has become increasingly busy and we can't stay online without your help. We need a hosting account upgrade to help cope with the increased activity and keep this free blog online. In this age of great change The Tap is a valuable independent resource where we can come together and share information the controlling parasites would rather we didn't have. Please help if you can and donate a small amount towards the hosting costs. Your donation will make a huge difference. Thank you in advance. [Click here to donate](#)

Macgregor: Germany will leave NATO and EU

Thu 3:58 pm +00:00, 9 Jan 2025 4

posted by newensign

In economic and military terms, it is indispensable to the survival of not only NATO, but the European Union. And I would argue that both organizations are in very, very fragile condition. NATO presents a good front with the help of a media that is largely controlled by intelligence services in the West, designed to portray success in places like Ukraine, where there has been nothing but failure.

But this is all falling apart because of the economic reality. **Germany has been essentially subjected to pasteurization on the model of the Morgenthau plan at the end of World War II.** A plan which we considered and then rejected, but was put forward by Morgenthau. The combination of deindustrialization with the influx of millions of non-Europeans, primarily people from the Middle East and North Africa, has turned Germany into a catastrophe.

The population knows it, and the population is now ready to change horses and to remove the people in Berlin that are responsible and to put in a new government. **This new government has made it very clear that they do not necessarily agree with the assumption that Germany's membership in NATO is a benefit to Germany, or that Germany's membership in the European Union is necessarily a benefit.** Germany is the convenient whipping boy who's blamed for everything that everyone everywhere in Europe doesn't like.

And it's stupid, and they're sick of it. And I think we're going to see a rising tide of German nationalism that charts a fundamentally new course. **And that course will take Germany back to where it spent most of its time over the last 300 years, and that is as a strategic partner for Russia.**

The crushing of Germany took over 100 years. It is almost complete now. So the EU engine has seized up for lack of lubrication, the German pols deliberately let it burn out, under strict supervision from their City of London/US masters

The German people clearly want change, AfD etc. But will that be allowed? I somehow doubt it. slightly more palatable pol puppets are more likely

I have my doubts too, Germany is as unified as we it is very much state orientated. So could see Bavaria break away,

Will the US allow it? Seems really doubtful.

Germany has been under the thumb of the US ever since the end of WW2.

Feels like hopium or wishful thinking, even though we know Macgregor has many contacts in Europe who supply him with information.....

Yes Daceaway, the Germans have allied occupation government pretending to be German. With the EU having got itself into a position of weakness though the war in Ukraine dissident politician see a window of opportunity to take control. It is London who controls a USA through its Rothschild banking cartel.
